# Caring for Your Family Like Our Family

Personal care, transportation, meals, errands and companionship  
services for disabled adults

## In-Home Care

Home Health Care Agency of Arkansas, LLC provides in-home care services to disabled adults, such as personal care (hygiene and dressing), meal preparation, running errands, transportation for health appointments, and companionship. We also provide medical supplies. We strive to treat all of our patients with the same loving care we would provide to our own family members.

## About Us

We understand the challenges of caring for a loved one who needs non-medical care to continue living in their home. We have personally experienced these challenges. Our custom care program for disabled adults allows us to set a high standard in home care while treating you like family. Our caregivers are not nurses, but they are trained and carefully selected based upon their experience and compassion. Criminal background checks are always performed.

# Services:

## Personal Care

Personal care assistance performed by a non-family member allows your loved one to maintain their dignity while receiving the help he or she needs to stay healthy and independent. Our caregivers provide compassionate assistance with personal care, including tasks like bathing, toileting, incontinence care, personal hygiene, dressing, and grooming.

## Meals

Our trained caregivers can help your loved one with a healthy, well-balanced diet. From the grocery shopping to the meal prep, our in-home caregivers can provide meals that appeal to all tastes and dietary restrictions. We can help your loved one eat well by providing menu planning, recipe research, make favorite childhood recipes, grocery shopping, meal preparation including eating environment prep such as setting the table in an appealing fashion.

## Transportation

Our incidental transportation services get your loved one where they need to go. Our professional caregivers don't just drop off and pick up your elder family members. Instead, we help your loved ones get ready, accompany them, and provide any assistance required at the destinations such as medical appointments, shopping, hairdresser/barber, prescription drop-off and pick-up, religious services, social events, and therapy sessions.

## Companionship

Our professional caregivers act as trusted partners to your loved one while offering a friendly ear and capable hands. Your loved one will benefit from consistent human interaction, such as activities and games, and you will enjoy the peace of mind that comes from knowing your family member is safe and cared for.

Home Health Care  
Agency of Arkansas

### Medical

Our caregivers are not nurses. However, they will be happy to transport your loved one to medical appointments.

### Compassion

Our team of caregivers are here to help. We will conduct a free assessment to determine your loved one's needs.

### Medicine

Our caregivers can offer friendly reminders to your loved one prompting them to take medication as prescribed by a doctor.
